STAT

We are most pleased that you were able to join us this summer for the opportunity to acquire a first-hand view of the work of the Agency and especially FBIS. From our perspective, your participation as an active member of our West Europe branch more than met our expectations of the goals of the Summer Fellows Program, and we hope that you also found the experience to be enjoyable and enriching. You have made many new friends in FBIS this year who expect to remain in contact with you after you return to your position at Savannah State College. We also hope that the impressions you carry with you will be favorable and that we can count on your support in our efforts to attract minority students to the Agency.

We wish you much success in the coming year and again extend our thanks for your contributions to our efforts.

Sincerely,

Deputy Director
